The unit comes complete with a lockable inspection/cleaning hatch and a long perch which is demountable for ease of transport

\* 2010 models feature FSC plywood

### **Tawny Owl facts**

The Tawny Owl is the most common and widespread owl in Europe.

The Tawny Owl's call is the characteristic 'tu-wit, tu-woo'

They feed mainly on small ground mammals, but will also take birds, insects, amphibians, fish etc

Young owlets leave the nest site at 3 - 4 weeks and grow up in the relative safety of the tree canopy
